SUMMARY

Game Developer with over 4 years of experience in the game and VR/AR industry, specializing in **Unity 3D** and the development of various genres like **Metaverse**, **2D**, **VR**, **AR**, **Multiplayer**, **Quiz**, and **Puzzle**. Skilled in backend servers and **Photon** for real-time needs and data storage, with experience managing **700** live client users in large events. I enjoy learning new things, playing games, and reading books, which help me stay creative and inspired in my work. Known for collaborating effectively with **3D** and **2D** teams to optimize game assets and ensure maximum performance in every project.

EXPERIENCE

Telkom Indonesia – Jakarta

Game Developer (March 2022 - April 2024)

- Engineered the **Kemendikbud AR** application, allowing users to scan barcodes on the **Nusantara** map, enhancing museum visitors' learning experiences by 50%, as measured by interaction metrics and user feedback.
- Designed and maintained **Metanesia**, a metaverse platform used in over 10 major events, serving up to 700+ simultaneous users.
- Collaborated with clients to manage events in **Metanesia**, including major events like the **Honda showroom**, providing an interactive virtual experience that reduced physical event costs by 30% while enhancing visitor engagement to effectively introduce new **Honda** products.
- Implemented the **Unjani AR** application, enabling barcode scanning to display AR educational resources.
- Programmed cutscene sensing for the **Honda showroom** event in **Metanesia**, enhancing visitor engagement.

Medify – Surabaya

Fullstack Web Developer (December 2020 - January 2022)

- Managed the **backend** and **frontend** of the **SIMRS** (Hospital Information System) in several hospitals in Surabaya, speeding up medical data access.
- Responsible for **server and database management**, ensuring **99.9%** uptime for smooth operations.
- Developed **automated input forms** for doctors' medical records, reducing data entry time.

Pola Kreatif – Yogyakarta

Fullstack Web Developer & Game Developer (December 2019 – January 2020)

- Conceptualized a face filter app for skincare recommendations.
- Built an interactive **digital invitation** system using **Laravel**, improving invitation creation efficiency by **30%** compared to manual methods.
- Optimized an integrated **Management Information System (MIS)**, speeding up data management by **40%**.

ARUTALA – Yogyakarta

Game Developer (June 2019 – August 2019)

- Developed a **heavy machinery VR simulation** feature, allowing users to train using machinery with a near-realistic experience, used in technical training by **over 200 participants**.
- Enhanced visual realism by producing particle effects for machine simulations, such as **fire and sparks**.
- Refined and optimized **machinery animations**, contributing to a **15%** increase in system responsiveness.

INSPYRO – Yogyakarta

Game Organization Member (August 2016 - December 2018)

- **Organized** training programs to introduce game concepts to over **50 new students**, enhancing their comprehension of game development fundamentals by **30%**, based on pre- and post-training assessments.

- **Designed** an arcade quiz game as an educational tool for students, increasing engagement in interactive learning activities by **40%** during campus workshops.
- **Developed** the UII Tutorial, a guide used by over **500 students**, simplifying their academic journey and improving resource access by **25%**, as reflected in student feedback.
- **Engaged in** campus events showcasing VR/AR technology, attracting over **200 participants** and raising awareness of cutting-edge innovations by **35%**, as measured by event surveys.

EDUCATION

Universitas Islam Indonesia (2013 - 2019)

Bachelor of Informatics Engineering - GPA 3.51

SKILLS

Game Development:

- VR/AR Development
- Mobile Game Development & Game Design
- Unity
- C#
- Animation
- Multiplayer Game Development

Technical Skills:

- Backend Development
- Git
- API Integration
- Database Management

Project Management:

- Agile Project Management
- Scrum Methodology
- Cross-Functional Team Collaboration

Soft Skills:

- Logical Thinking
- Communication
- Adaptability
- Detail-Oriented
- Collaboration
- Task Prioritization
